

# Dashboard

A dashboard is a visual representation of key information, data, or metrics displayed in a consolidated and easily digestible format. It is typically designed to provide users with a quick and clear overview of relevant information to help them make informed decisions or monitor specific aspects of a system.

- [Dashboard Overview](#)
- [Set up](#)

# Dashboard Overview

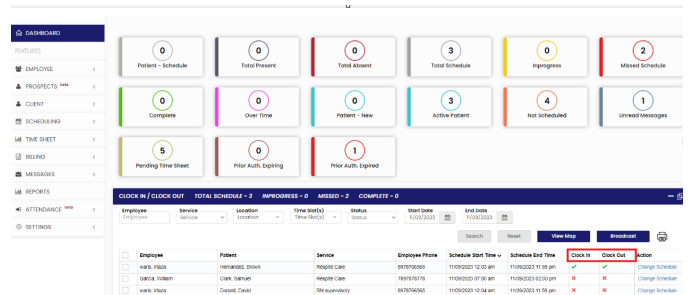

The dashboard screen serves as a comprehensive overview of the organization's activities, providing users with real-time reporting information for efficient tracking and management of day-to-day operations. Here is a breakdown of the key elements displayed on the dashboard.

**The Dashboard screen provides a quick glance view of the schedules for the day.**

## Features in Dashboard

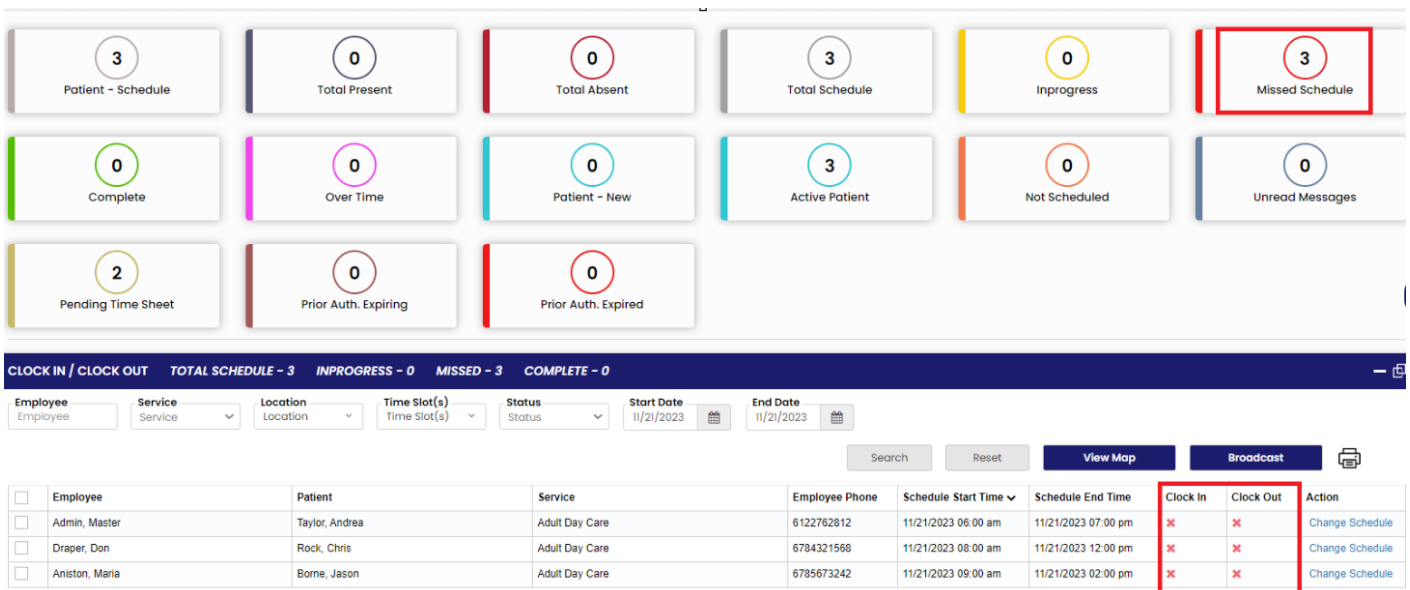

### Employees - Clock-in / Clock out:

This section provides information about employee attendance, including their clock-in and clock-out times. It helps monitor and manage employee working hours, ensuring proper attendance and time management.

## Missed Schedules

The user can track the missed schedules for the day by clicking the option Missed in the Dashboard. The schedules in which the clock-in and clock-out is not done comes under missed schedules.

## Complete Schedules

The user can track the completed schedules for the day by clicking the option Complete in the Dashboard. The schedules in which the clock-in and clock-out is done comes under Complete Schedules.

**Dashboard Summary (Complete Status):**

- Patient - Schedule: 3
- Total Present: 0
- Total Absent: 0
- Total Schedule: 3
- Inprogress: 0
- Missed Schedule: 2

Employees Overtime:

The employees' overtime section displays the number of employees who have accumulated overtime hours in the last seven days. It helps organizations track and manage overtime effectively, ensuring compliance with labor regulations and managing workload distribution.

Upcoming Birthday:

This section presents information about upcoming birthdays of both patients and employees. It serves as a reminder to celebrate and acknowledge birthdays, fostering a positive work environment and patient care experience.

**Patient - New:**

The new patient section provides information about recently admitted or registered patients. It allows staff to stay informed about new arrivals and helps initiate the necessary procedures and documentation for these patients.

**Patient - Fully not scheduled:**

This section highlights patients who are not yet fully scheduled for the next seven days. It alerts staff to ensure proper scheduling and avoid any gaps in patient care or appointments.

**Patient - Pending:**

The pending patient section displays information about patients whose status is pending. It helps staff stay updated on patients whose cases are awaiting further actions or approvals, ensuring timely follow-up and resolution.

**Patient - Discharged:**

This section provides information about patients who have been discharged from the organization's care. It helps track the number of discharged patients and their relevant details for record-keeping and reporting purposes.

**Patient - Transfer:**

The patient transfer section provides information about patients who have been transferred to another location or facility. It enables seamless coordination between different departments or facilities involved in the patient's care.

**Patient - On Hold:**

This section displays information about patients who are currently on hold, indicating that their cases are temporarily paused or pending certain conditions or decisions. It helps staff track and manage patients whose care plans are on hold.

**Prior Auth Expiring:**

This section highlights the expiration dates of prior authorizations. It enables staff to proactively manage the authorization process, ensuring that necessary authorizations are renewed or extended in a timely manner to avoid disruption in patient care and billing.

PRIOR AUTH EXPIRING			
Patient	Payor	Expiring Date	Total Visits
dev, Rahul	Atena	11/10/2023	20

**Prior Auth Expired:**

The prior authorization expired section provides information about authorizations that have expired. It helps staff identify cases where authorization needs to be reestablished to continue patient care and billing processes smoothly.

PRIOR AUTH EXPIRED			
Patient	Payor	Expiring Date	Total Visits
Hernandez, Brown	Atena	11/05/2023	33

**Overall, this comprehensive dashboard enables users to monitor and manage various aspects of the organization's activities, ensuring efficient operations, timely patient care, and compliance with necessary protocols and regulations.**

# Set up

Setting up an application is the process of installing, configuring, and customizing software or systems to ensure they work as intended. It involves tailoring the application to specific needs, setting user permissions, and preparing it for use, ensuring a smooth and effective operation.

Note: All Fields marked with \* are mandatory and must be filled out, otherwise the system will generate an error indicating that the required information is missing.

## User Login

The User Login on the top right corner of the software contains the following features:

- My Profiles
- Roles and Permissions
- Organization Settings
- Billing
- Log Out

## Announcement

### What's new in Ver. 2.1.36

Posted On: 6/24/2023

**Bugs:**

- Some UI Issues fixed on referral timeslot issues like days dropdown and +1 day etc.

**Features:**

- On Adult Daycare –Added option for skipping patient task list, and it's based on permission. When we click on the clock-out button then asking Do we want to Skip the Attendance Patient Task if select yes then skip the task list and redirect to the clock-out page if select no then it renders to the task list page.
- Change Schedule hyperlink added in the ClockIn Out list on Dashboard. Here user can change the scheduled employee and time.
- Patient schedule days name information added on a patient schedule list, And also here we can get schedule-related complete information and we can assign the schedule to another employee.

Your feedback is very valuable to us to improve the features and enhancement. Please provide your feedback by emailing us at [helpdesk@myezcare.com](mailto:helpdesk@myezcare.com)
