

New Patient

A "new patient" in an Adult day care setting refers to an individual who is newly enrolled or admitted to the facility, typically an older adult or senior in need of supervised care, social activities, and assistance with daily living tasks.

Adding New Patient

Note: All Fields marked with * are mandatory and must be filled out, otherwise the system will generate an error indicating that the required information is missing.

For adding new patient information in the system follow these steps.

Client >> + Add option

Update the patient information in the required field. Click +Add New Contact option to enter the patient address and then click save. The user can also upload the profile image of the patient for additional information.
