

# Service Code

A service code is a standardized alphanumeric or numeric code used for billing and documentation. It categorizes and identifies specific procedures, services, and equipment provided to patients. Service codes help ensure accurate billing, reimbursement, and compliance with healthcare regulations in the field.

## Adding Service Code

Note: All Fields marked with \* are mandatory and must be filled out, otherwise the system will generate an error indicating that the required information is missing.

**Settings >> Service Code >> + Add option**

The user can update the Service code details in the required field and Click Save option.

ADD SERVICE CODE DETAILS
