

Billing Claims

Billing claims are formal documents submitted to insurance companies and seeking reimbursement for medical services delivered to patients in their homes. These claims detail the services provided, associated costs, and ensure proper compensation for home-based services.

Adding Batch for Billing

Billing >> Billing Claims

To bill the visits in the Timesheet, the user has to create Batches for the Timesheet and submit them to the insurance company for payment.

Click +Add Batch option on the top right side of the screen. Select the Batch Type as Initial Submission, Select the Payor, Service code, Start Date, End Date and Click Search option. Now a popup will appear with the details of the Timesheet, check the box and Click Create Batch option for adding a Batch.

Add Batch

Batch Type Initial Submission ▼	Payor United Healthcare ▼	Service Code Personal Care - T1019 - HI ▼	Client Name Client Name
Start Date 10/11/2023	End Date 10/18/2023	Search	Reset

The Batch is created with initial submission. Now under Actions Click the Submit Claim option.
