

# Dx Code

Diagnosis codes (Dx Code), typically using the ICD-10 system, are vital in home health care for billing, care planning, communication, and quality reporting. They ensure accurate reimbursement, guide treatment plans, facilitate information sharing among healthcare providers, and help monitor patient outcomes, improving the overall quality of home health services.

Note: All Fields marked with \* are mandatory and must be filled out, otherwise the system will generate an error indicating that the required information is missing.

## Adding Dx Code

**Settings >> DX Code >> + Add option**

Update the required information in DX Code details and Click Save

## DX Code Details

DXCode Type ? \*

Select DxCode Type

DX Code without dot \*

DX Code without dot

DX Code \*

DX Code Name

**E.g:**

DxCode without dot - 'T7402'

DXCode - 'T74.02'
