

Facility House

A facility house in home care refers to a residential care setting for individuals requiring assistance with daily living. It offers a safe environment with support for activities, medical services, and social interaction.

Note: All Fields marked with * are mandatory and must be filled out, otherwise the system will generate an error indicating that the required information is missing.

Adding Facility House

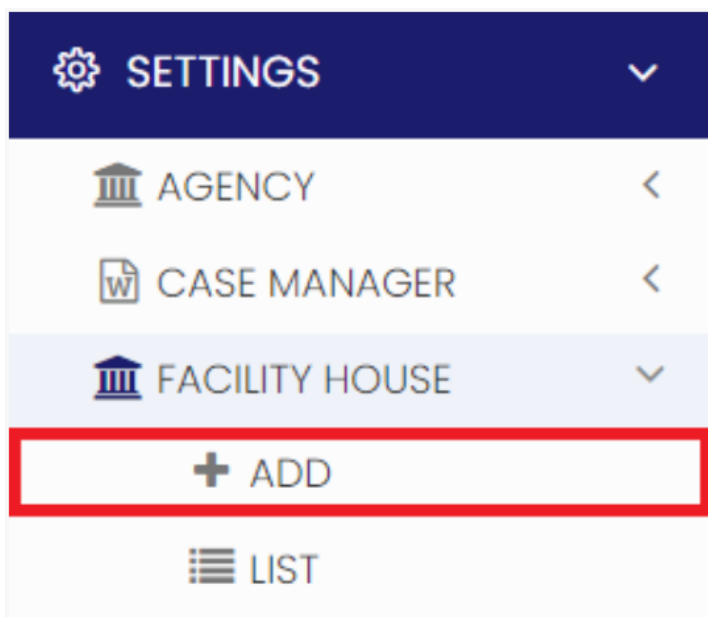

The Facility house can be added in the system under the feature Settings.

Settings >> Facility House >> +Add option

The Facility house provide round the clock support to ensure that the residents have access to assistance and care whenever they need it. This may include staff members available on-site at all times to respond to emergencies or provide assistance with activities of daily living.

The Caregivers in the Facility house provide companionship and emotional support to residents, helping them with social interaction and recreational activities.

For Adding the Facility Name in the system, click the option + Add under Settings.

Update the Facility House Details in the required fields and Click Save option.
