

# Patient Document

Patient document consist of essential medical records, treatment plans, and progress notes. These documents track the patient's health history, medications, diagnoses, and care schedules.

## Uploading Patient Documents

The required documents of the patient can be uploaded in the system by using the option Patient Document.

**Client >> List >> Select Patient >> Document**

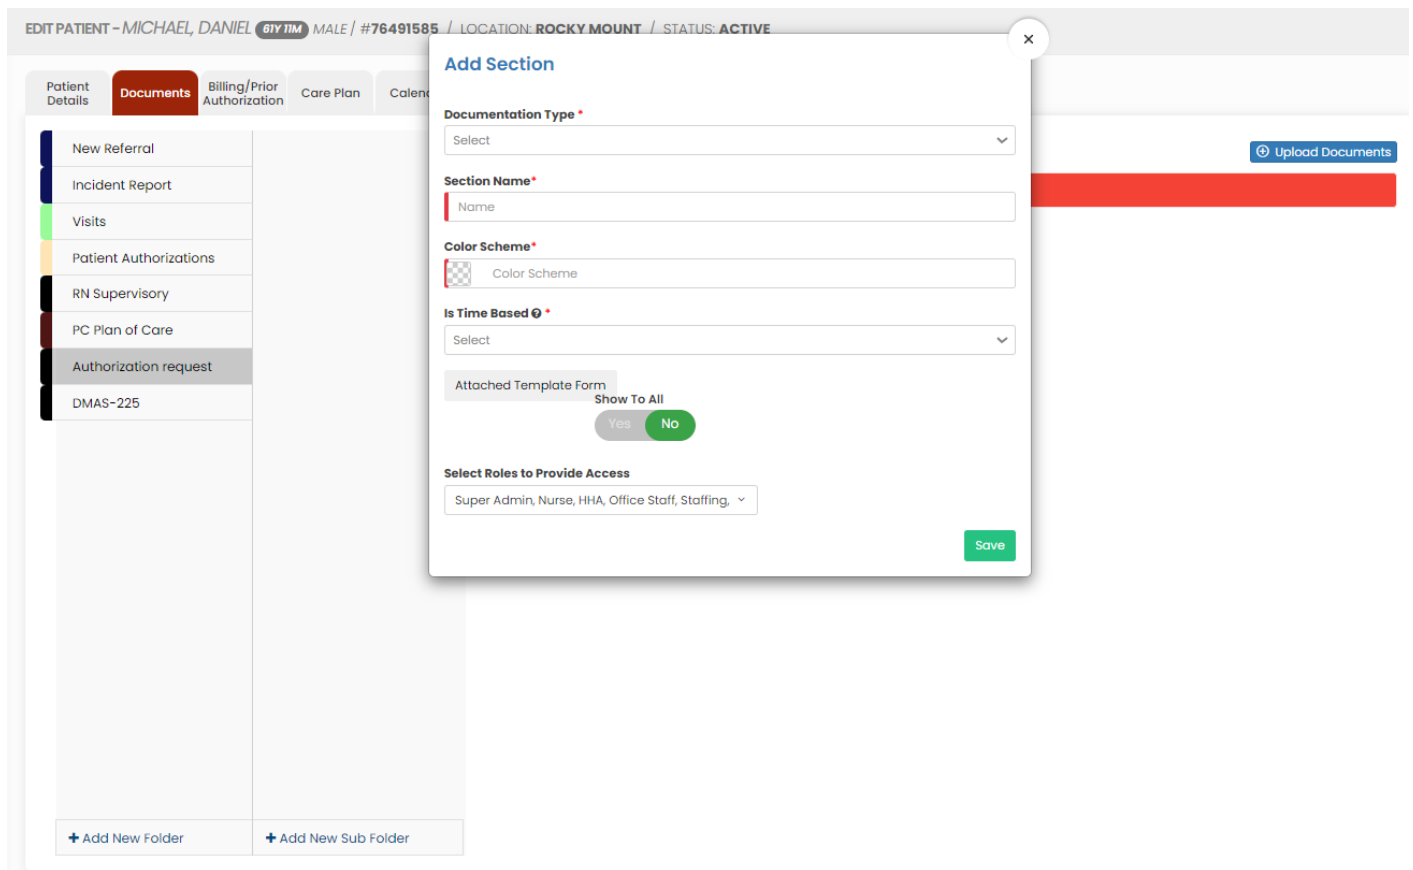

Select the type of document from the list and Click the Upload Documents option. The user can also Add New Folders and Subfolders to upload the documents.

## Adding New Folder

Click + Add New Folder option in Patient document. The following screen appears, update the required information. Also in the option Show to All, if the user needs the folder name to be added for all the patient click Yes option. If the user wants the folder to be added only for the particular patient click No option and click Save.

The folder Documents is added successfully to upload the required documents of the patient.

## Adding New Sub Folder

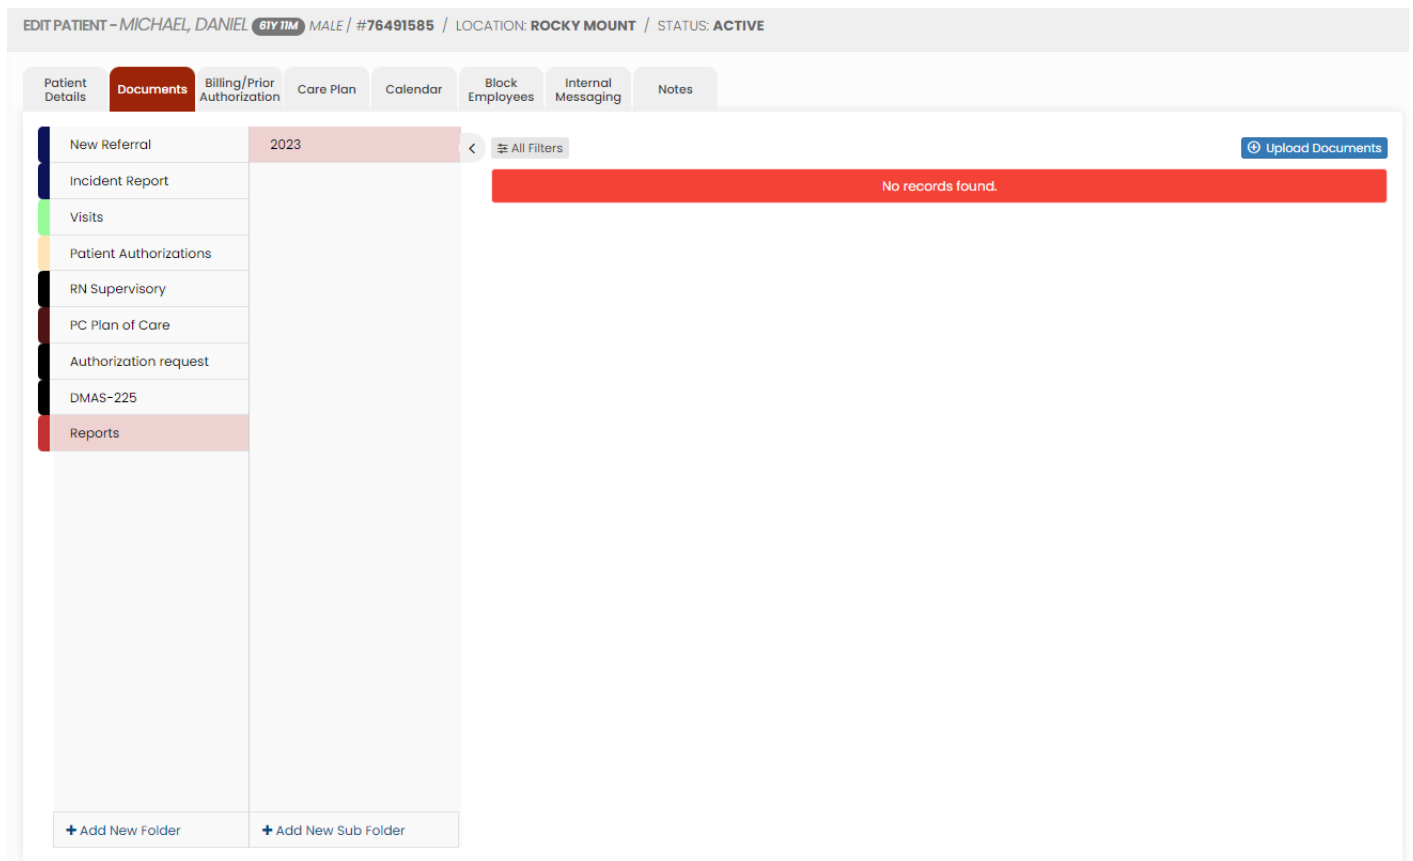

Select the folder name and click the option +Add New Sub Folder option. The following screen appears, update the required information. Also in the option Show to All, if the user needs the Sub folder name to be added for all the patient click Yes option. If the user wants the folder to be added only for the particular patient click No option and click Save.

The screenshot shows a web application interface with a sidebar on the left containing a list of document types: New Referral, Incident Report, Visits, Patient Authorizations, RN Supervisory, PC Plan of Care, Authorization request, DMAS-225, and Reports. The 'Documents' tab is selected at the top. A modal dialog titled 'Add Sub Section' is open in the center. It contains the following fields and options:

- Documentation Type \***: A dropdown menu with 'Select' as the current value.
- Sub Section Name \***: A text input field with 'Name' as the placeholder.
- Is Time Based \***: A dropdown menu with 'Select' as the current value.
- Attached Template Form**: A section with a 'Show To All' toggle. The 'No' button is currently selected.
- Select Roles to Provide Access**: A dropdown menu with 'Super Admin, Nurse, HHA, Office Staff, Staffing, ' as the selected roles.
- Save**: A green button at the bottom right of the dialog.

At the bottom of the sidebar, there are two buttons: '+ Add New Folder' and '+ Add New Sub Folder'.

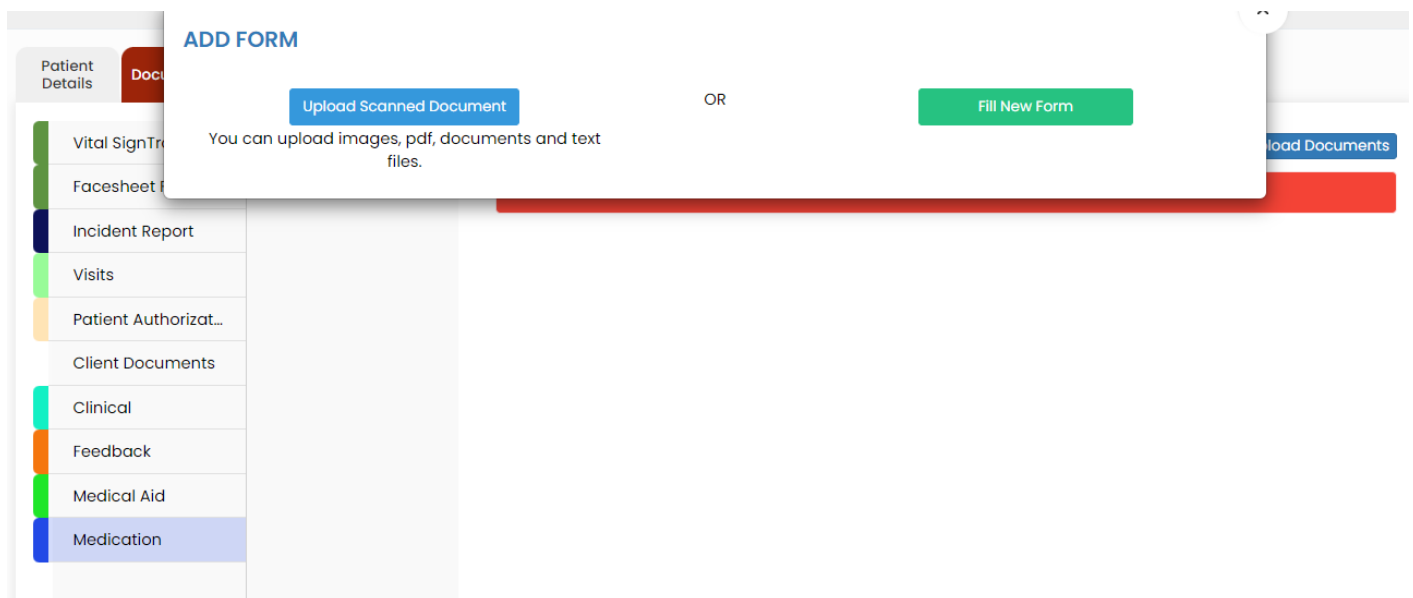

The Sub folder 2023 is now added under folder name Reports to upload the required documents of the Patient.

## Uploading Documents

To upload the documents, select the folder name and click Upload documents.

When we click the option Upload Documents, the following screen appears,

The Scanned documents can be uploaded using the option Upload Scanned Document. The Forms in the system can be uploaded using Fill New Form option.

Under Actions we have the following features for the uploaded document.

Send for Signature beta

Click the option Send for Signature, the following screen appears, Update the required details and Click Send option.

The screenshot shows a web application interface for editing patient information. At the top, a header bar displays 'EDIT PATIENT - PETER SMITH', '70Y 11M', 'MALE', '#0002', 'LOCATION: N/A', and 'STATUS: ACTIVE - SERVICE ON-GOING'. On the left, a sidebar menu lists various document types: Vital SignTracking, Facesheet Form, Incident Report, Visits, Patient Authorizat..., Client Documents, Clinical, Feedback, Medical Aid (highlighted in green), and Medication. The main content area is partially obscured by a modal window titled 'Send Email for Signature'. This modal has a 'Template: Select Template' dropdown at the top right. The 'From' field is set to 'noreply@myezcare.com'. The 'To' field contains 'test123@mailinator.com' with an 'Add recipient' link. The 'Subject' field is 'Test'. Below the subject field is a rich text editor with buttons for Bold (B), Italic (I), Underline (U), Bulleted List, Numbered List, Text Color (T), and Source Code (<>). A red 'Access Document' button is visible in the email body. The email body text reads 'Thank You,'. At the bottom of the modal are 'Close' and 'Send' buttons.

Now the email will be sent with the Document for signature. When the employee click on the Access Document, the following screen appears. On clicking the Send option, the patient will receive a 5 digit OTP for verification. Once the verification is completed, the Document automatically opens in which the patient can update their signature and save the document.

The screenshot shows a 'Document Access' screen. It features a heading 'Document Access' and a message: 'We'll send you a one-time password (OTP) to your email address (a\*\*\*\*\*i@myezcare.com). This OTP helps protect your account by adding an extra layer of security. Please check your inbox and enter the OTP below to verify your account.' Below this message, it says 'You can send the OTP by clicking the button below.' and there is a blue button with an envelope icon and the text 'Send'.

The Signature updated document will be visible under the folders.
