Physician

A physician refers to a licensed medical doctor who plays a critical role in overseeing and providing medical care to patients within the comfort of their own homes. These physicians diagnose, prescribe treatment plans, and monitor the health and well-being of patients, ensuring personalized and comprehensive medical support.

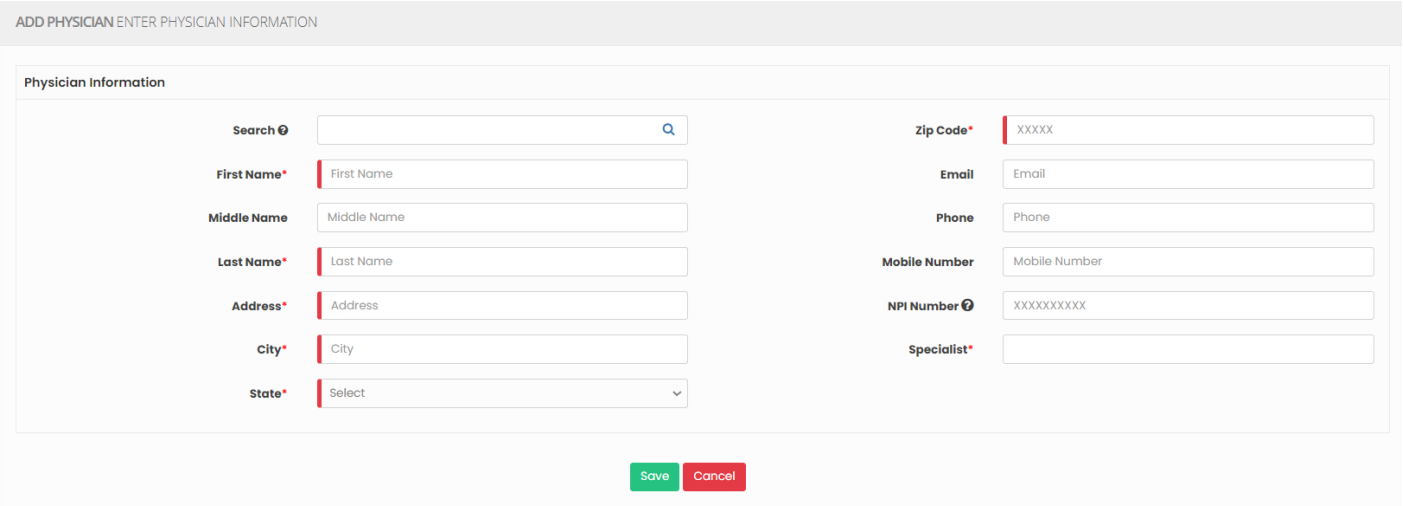

Adding Physician

> Note: All Fields marked with * are mandatory and must be filled out, otherwise the system will generate an error indicating that the required information is missing.

> **Settings >> Physician >> +Add option**

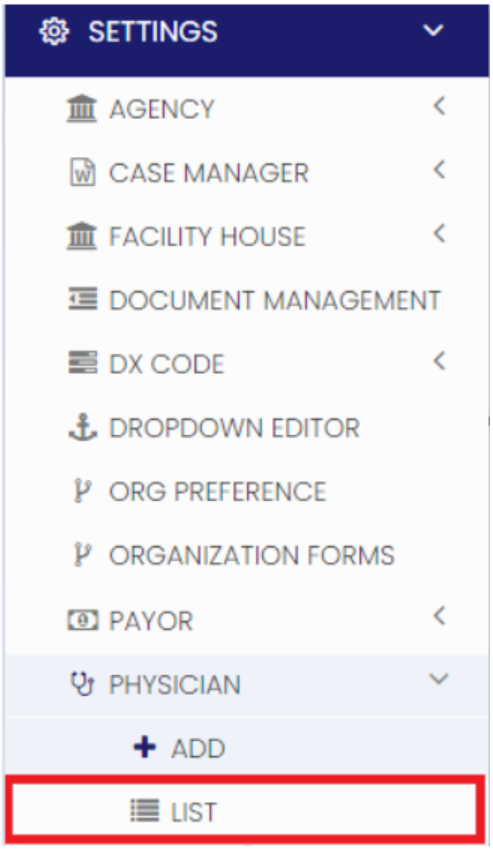

The user can update the required Physician details and click Save option.

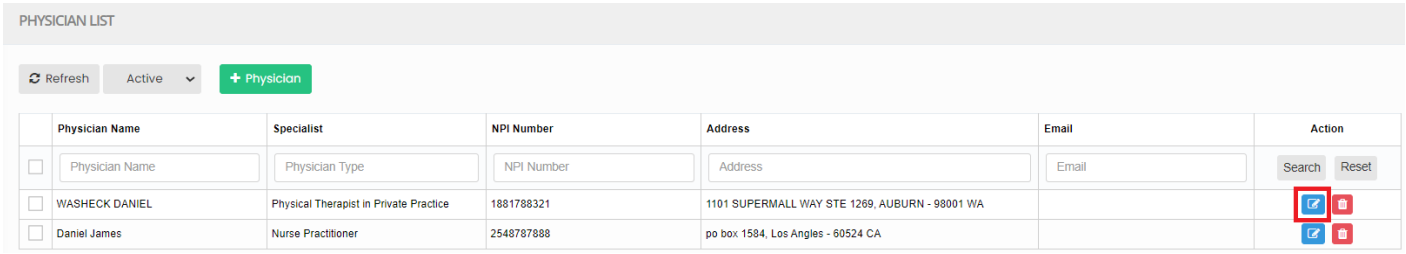

Editing Physician

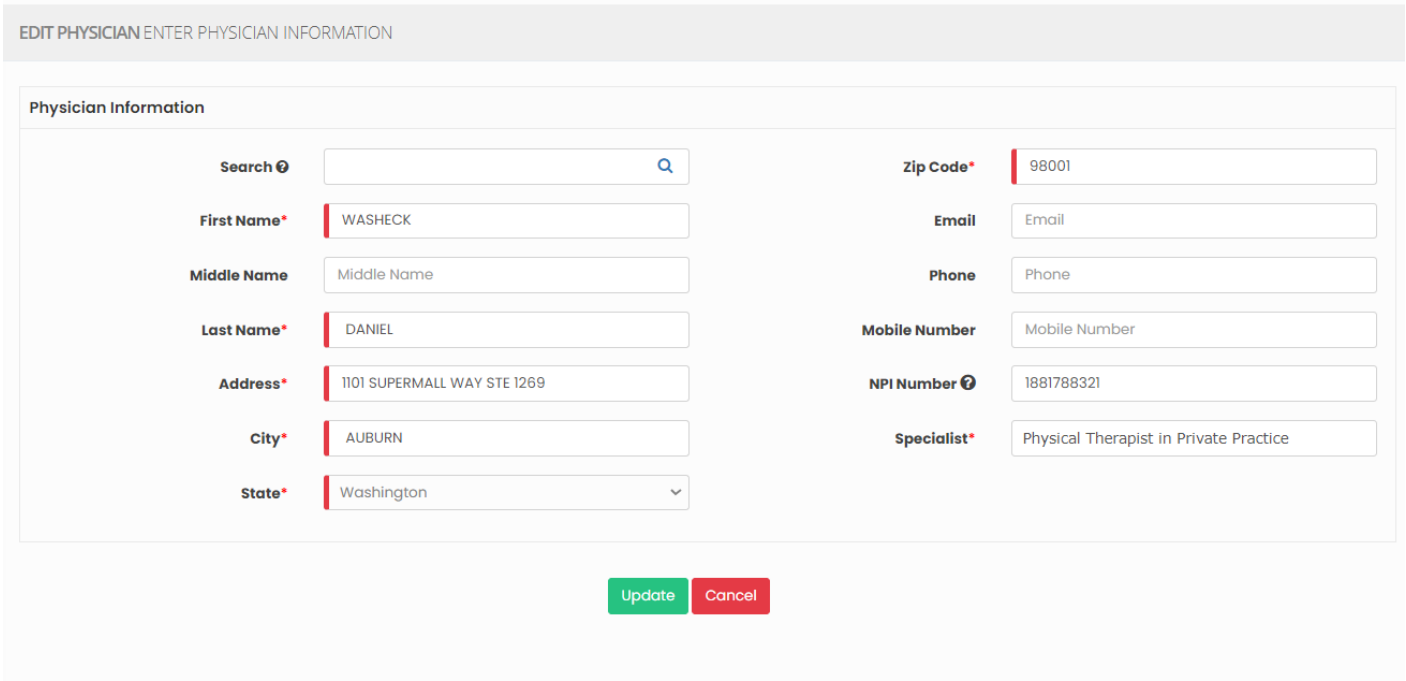

> **Settings >> Physician >> List**

Select the Physician from the list and Click the Edit option.

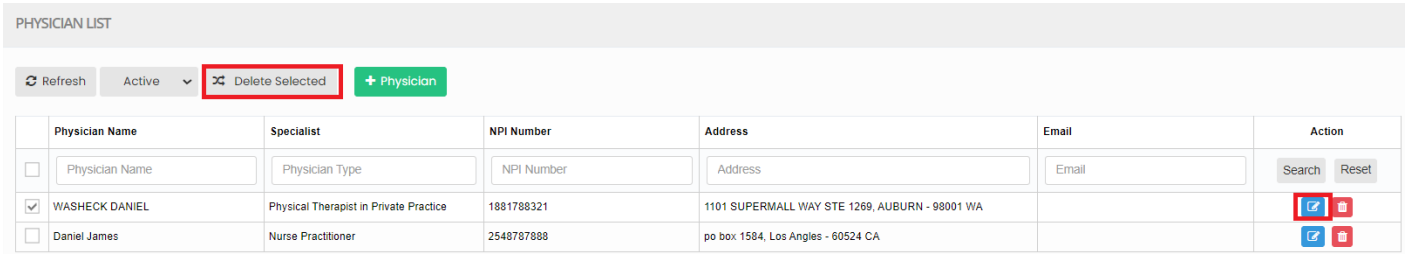

Now, Edit the required information and Click Update.

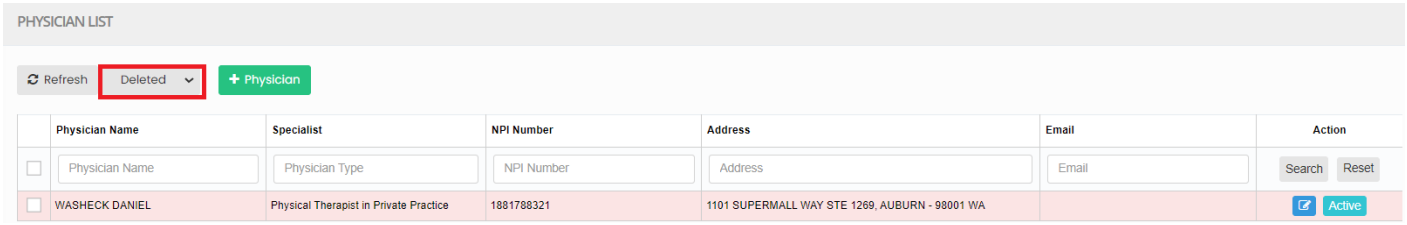

Delete Physician

> **Settings >> Physician >> List**

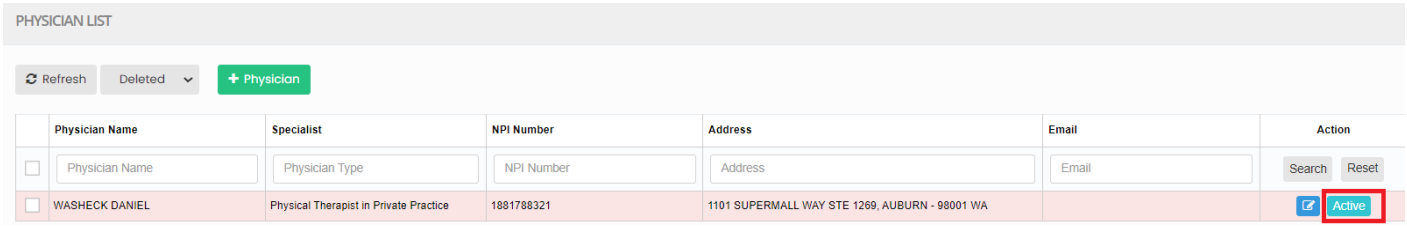

Select the physician from list using the check box and click Delete or Disable Selected option in the screen.

Now, the physician gets deleted and we can view the physician under Deleted list.

The user can also restore the deleted physician by using the option Active on the right side of the screen.
