

Visit Task

A Visit Task refers to a specific set of responsibilities and activities performed by a healthcare professional during a patient's home visit.

Note: All Fields marked with * are mandatory and must be filled out, otherwise the system will generate an error indicating that the required information is missing.

Adding Visit Task

 VISIT TASK 

 ADD

 LIST

The user can update the task details in the required fields and Click Save option.

If the task is a required task, select "YES" under Is Required field. We can also add forms to the task using the option + Add form under Form Mapping and map the the form to the updated task. The Mapped form will automatically appear in the mobile app for the when the Caregiver add the task in the mobile app and once the form is completed it will be automatically assigned with the Timesheet for the visits.
