

Employee Document

The Employee documents may include certifications, employment contracts, and care plans, ensuring compliance with regulations and offering a comprehensive overview of the caregiver's qualifications and responsibilities.

Uploading Employee Document

The required documents of the Employee can be uploaded in the system by using the option Employee Document.

Employee Tab >> List >> Select Employee >> Employee Document

Select the type of document from the list and Click the Upload Documents option. The user can also Add New Folders and Subfolders to upload the documents.

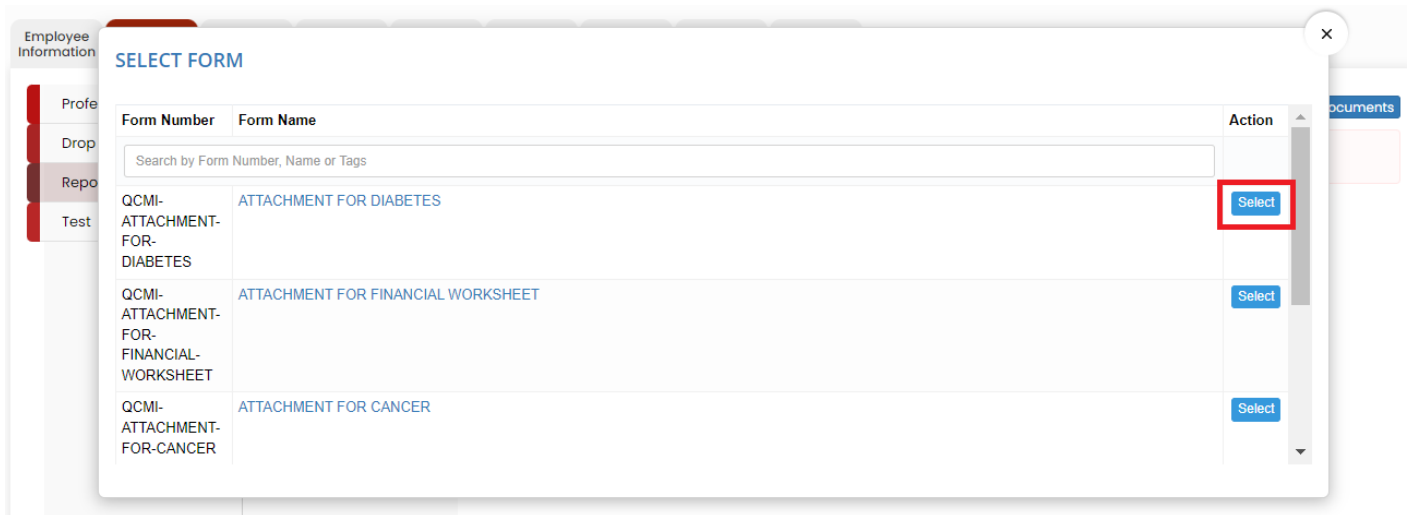

When we click upload documents, the following screen appears. The user can choose the options whether to Upload Scanned Documents or to Fill New form.

Upload Scanned Document option allows the user to upload the scanned documents as per requirement.

Fill New Form option allows the user to select the form from the list.

After selecting the form, the following pop-up appears whether to Map Form. Click Yes option if the user wants to preserve this preference for future use, if not Click No. The user can now edit the form and click save option.
